

Reflection Questions

Instructions

Use the following reflection questions to help guide discussion when reviewing the results of the BASICS for Special Education Infrastructure Summary Snapshot Report and identifying next steps.

Which subcomponents are we not yet implementing, and why?

Which subcomponents are we only partially implementing, and what might it take to get to full implementation?

Are there subcomponents that have already been established, but that might need some improvement? If so, why?

Of the subcomponents needing attention, where might there be the greatest will or sponsorship for improvement efforts?

Are there subcomponents that have already been established but that might require greater and/or more-immediate attention than others, based on the current needs of our LEA?

Given answers to the above questions, what are our top priorities for improvement?
